

Safari Tour Guide

We are excited to share with you this fun "Wild Animal" activity to do with your child. Here are a few simple directions on how to use the Guide and Animal Cards.

1. You may wish to print the pages on cardstock for more durability.
2. Clip the Safari Tour Guide onto a clipboard if you have one. If not, tape it onto something firm. (Before you start the Safari you can challenge your child to color the animals on the Guide.)
3. Have your child cut apart the animal cards. Then have them hide their eyes while you place them around the house or outside! (helpful hint: You can use a clothes pin to clip the cards in place)
4. Now grab the Safari Guide, a crayon and go animal hunting! As you find an animal color in the box on the Guide.
5. If you have made the Safari Hat and Camera from our unit, be sure to put them on! I bet you can get some great pictures of your "Wild Animals".

Good luck on your Safari!
